West Des Moines, IA | Open to Relocation | abilalh7@gmail.com | 571-778-0019 | GitHub | LinkedIn

EDUCATION

Boston University, Boston, MA
Computer Science and Artificial Intelligence, MS — Expected May 2028

THE UNIVERSITY OF IOWA, IOWA CITY, IA
Computer Science, BA (GPA: 3.66/4.0) — Dec 2022
Economics, BS (GPA: 3.71/4.0)

TECHNICAL SKILLS

Languages: Java, Python, JavaScript/TypeScript, C++, SQL
Frameworks: Django, React, Spring Boot
Databases/ Libraries: MySQL, PostgreSQL, Pandas, NumPy, scikit-learn, Tensor Flow
Tools/Concepts: Git, GitHub, Linux, VS Code, REST APIs, Data Structure & Algorithms, OOP, Agile, AWS

PROJECTS

Bookstore Web Application (React + Django)
React, JavaScript, Django, PostgreSQL
GitHub

- Developed and deployed a full-stack e-commerce application with product search, dynamic listings, shopping cart, and secure checkout
- Built RESTful APIs using Django for user authentication, order processing, and inventory management
- Integrated Stripe API for secure payment processing and end-to-end checkout workflow
- Implemented user authentication and authorization (registration, login, session handling)
- Designed responsive frontend using React with state management for real-time cart updates
- Used Supabase (PostgreSQL) for scalable data storage and efficient querying
- Deployed frontend on Vercel and backend on Render, enabling public access and production-ready architecture

Online Bookstore with Checkout Integration
Spring Boot, Java, MySQL, Stripe API
GitHub

- Built a full-stack bookstore web application with secure user authentication and Stripe-based checkout
- Implemented add-to-cart and order placement functionality with session management and user roles
- Developed RESTful APIs for managing books, users, and transactions using Spring Boot
- Integrated MySQL database with Spring Data JPA for data persistence and efficient queries

EXPERIENCE

Math Tutor — Sep 2025 – Dec 2025
Huntington Learning Center

- Tutored 50+ students in mathematics and science from elementary through high school
- Developed personalized plans for each student to address their goals and performance

Private Tutor — Jul 2023 – Jul 2025
Self-Employed

- Provided one-to-one tutoring to 10+ students at a time in mathematics, computer science, and statistics
- Taught programming fundamentals including Python, Java, data structures, algorithms, and debugging techniques.
- Assisted students in preparation for SAT and ACT tests.

Math/Statistics/Computer Tutor — May 2018 – Jun 2020
Des Moines Area Community College

- Assisted up to 30 students, in-person and online, with 100% student problems solution in a day
- Organized students in groups for peer coordination on similar problems; resulted in increased efficiency

Data Processor — Aug 2018 – Jan 2019
Cognizant Technology Solutions

- Interpreted, evaluated, and sorted up to 200 insurance tickets in a day
- Continuously received training for improving work pace and quality
- Suggested and used effective solutions in a team for problems such as how to sort tickets with unknown features

Computer Lab Assistant Jan 2018 – May 2018

Des Moines Area Community College

- Maintained computers functional by installing and fixing software and hardware that avoided delay in student work
- Tracked number of lab users by signing them in and out in the system that resulted in accuracy of lab usage report

CERTIFICATIONS

HARVARDX

CS50's Introduction to Artificial Intelligence with Python Oct 2024

- Completed hands-on coursework and programming assignments covering artificial intelligence concepts and Python-based AI development.
